Experiments and questions on hyperconductivity and quodons

F Michael Russell

Visiting Professor,
School of Computing and Engineering,
University of Huddersfield, UK

Research Collaborator,
Group of Nonlinear Physics
Honorary Assistant (until September 2019)
Department of Applied Physics I
Universidad de Sevilla, Spain

Formerly
Group leader, Rutherford High Energy Laboratory, Chilton, UK.

Virtual Talk on September 27, 2019
Closing Lecture: Seminar G0.81, ETSII, at 12h
JSLoc 2019: Japanese-Spanish Symposium on Energy Localization in Nonlinear Lattices.
Sevilla, September 23-28, 2019

Mike Russell in his laboratory in 2011 when he celebrated his 80th birthday.

Recent Publications

- **Rare cosmological events recorded in muscovite mica, FM Russell, arXiv:1902.00354 [astro-ph.HE] (2019)**
- *Hyperconductivity in fluorphlogopite at 300 K and 1.1 T.* FM Russell, MW Russell, JFR Archilla. EPL 127,1 (2019) 16001
- *Transport Properties of Quodons in Muscovite and Prediction of Hyper-Conductivity,* FM Russell, in Nonlinear Systems, Vol. 2. Springer (2018) 241
- *Infinite charge mobility in muscovite at 300K.* FM Russell, JFR Archilla, F Frutos, S Medina-Carrasco. EPL 120 (2017) 46001
- *On the charge of quodons,* JFR Archilla and FM Russell, Letters on Materials 6 (2016) 3
- *Tracks in Mica, 50 Years Later: Review of Evidence for Recording the Tracks of Charged Particles and Mobile Lattice Excitations in Muscovite Mica.* FM Russell, Springer Ser. Mater. Sci. 221 (2015) 3
- *I Saw a Crystal: An Historical Account of the Deciphering of the Markings in Mica.* FM Russell, Springer Ser. Mater. Sci. 221 (2015) 475
- **Charge coupling to anharmonic lattice excitations in a layered crystal at 800K, FM Russell, arXiv:1505.03185 [cond-mat.supr-con] (2015)**
